

UNITS	SPECIFICATIONS	MARKETS						APPLICATIONS
		Industries	Offices	Hotels & Shopping centres	Healthcare	Residential	Airports	
FLUID-TO-FLUID HEAT EXCHANGERS								
CORELIS Heat exchangers for district networks								
		X	X	X			X	Unequaled reliability Maximal safety :superheated water circuitfully welded construction free expansion of the bundle Reduced and quick maintenance
DOMESTIC WATER APPLICATIONS								
SANICIAT MSC Domestic hot water production modules								
	F: up to 12,3 m ³ /h		X	X	X			Packaged units for instantaneous and semi-instantaneous domestic hot water production Many options Electronic control Anti-legionella function included
	F: up to 9,5 m ³ /h			X	X			Instantaneous production and continuous thermal treatment of hot and cold water for domestic use Protects against the risk of legionella, pseudomonas and other bacteria.
COMPONENTS FOR DEHUMIDIFYING BIOGAS								
	F: 100 to 6000 Nm ³ /hr	X						Motor protection/ Improved performance Optimised systems/ Increased component reliability 800 installations equipped worldwide

F = flow rate in m³/h

Hc: heating capacity in kW
